^(a) Adjusted EBITDA is not a GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is a widely used measure of operating performance in the gaming industry. See "Reconciliation of GAAP Measures to Non-GAAP Measures" below for a definition of Adjusted EBITDA and a quantitative reconciliation of Adjusted EBITDA to net income (loss) attributable to Caesars, which the Company believes is the most comparable financial measure calculated in accordance with GAAP.

Balance Sheet and Liquidity

As of June 30, 2026, Caesars had \$11.8 billion in aggregate principal amount of debt outstanding. Total cash and cash equivalents were \$965 million, excluding restricted cash of \$112 million.

Net debt ^(a)	\$	10,842	\$	11,018

^(a) Net debt is a non-GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is helpful in understanding our financial position. Net debt is equal to total outstanding indebtedness less cash and cash equivalents.

As of June 30, 2026, cash on hand and borrowing capacity was as follows:

<i>(In millions)</i>	June 30, 2026
Cash and cash equivalents	\$ 965

Non-GAAP Measures

Adjusted EBITDA (described below), a non-GAAP financial measure, has been presented as a supplemental disclosure because it is a widely used measure of performance and basis for valuation of companies in our industry and we believe that this non-GAAP supplemental information will be helpful in understanding our ongoing operating results. Management has historically used Adjusted EBITDA when evaluating operating performance because we believe that the inclusion or exclusion of certain recurring and non-recurring items is necessary to provide a full understanding of our core operating results and as a means to evaluate period-to-period results. Adjusted EBITDA represents, as applicable, net income (loss) before interest income and interest expense, net of interest capitalized, (benefit) provision for income taxes, depreciation and amortization, stock-based compensation expense, (gain) loss on extinguishment of debt, impairment charges, other (income) loss, net income (loss) attributable to noncontrolling interests, transaction costs associated with our acquisitions, developments and divestitures, and non-cash changes in equity method investments. Adjusted EBITDA also excludes the expense associated with certain of our leases as these transactions were accounted for as financing obligations and the associated expense is included in interest expense. Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). Adjusted EBITDA is unaudited and should not be considered an alternative to, or more meaningful than, net income (loss) as an indicator of our operating performance. Uses of cash flows that are not reflected in Adjusted EBITDA include capital expenditures, interest payments, income taxes, debt principal repayments, distributions to our noncontrolling interest owners and payments under our leases with affiliates of VICI and GLPI, which can be significant. As a result, Adjusted EBITDA should not be considered as a measure of our liquidity. The reconciliation of net income (loss) attributable to Caesars to Adjusted EBITDA is attached at the end of this press release.

Net debt (defined above), a non-GAAP measure, has been presented as a supplemental disclosure because we believe it is helpful in understanding our financial condition. The reconciliation of net debt to total outstanding indebtedness is set forth above.

Other companies that provide similar non-GAAP measures may calculate them differently than we do, and the definitions may not be the same as the definitions used in any of our debt or lease agreements.
